

# Tokyo 2020 program “Olympic Value Education”

## Learning about the Olympics in English

On Thursday June 6, we learned about Paralympics in English from a lecturer we invited. This event had never been held before. We learned about the value of the Paralympics and the competition, and finally, we thought of our own new competition to present.

Also, the day was the “Paralympic Day.” Some foreign teachers of our school had a lot of interesting sessions. And we tried to play “Sitting Volleyball.”
