

# ESD passport presentation

On December 14, the ESD Passport Debriefing session was held at Nagoya Meito High School.

6 UNESCO committee member students, and the first grade Global Awareness course students joined.

Our school students gave a presentation on the UNESCO committee's activities, and we heard other schools' opinions. We had a very meaningful experience.

## Student Opinion

- When I saw other schools' students' presentations, I thought I can do more .
- I was nervous when I gave my presentation. However, I was happy because other students listened well to my presentation.
